Summary

Degree in Computer Science and I'm currently completing a Master's degree in Applied Artificial Intelligence.

Education

UniCa (University of Cagliari)
Cagliari, Italy

M.S. IN APPLIED ARTIFICIAL INTELLIGENCE
Sep 2023 - Current

UniCa (University of Cagliari)
Cagliari, Italy

B.S. IN COMPUTER SCIENCE
Sep 2020 - Jul 2023

- **Thesis**: "Development of a web application for blood donation management". This thesis came about during an internship experience, in which we thought about how to approach a major problem that still exists in blood donation centres today; the management of centres, etc.

Internship

Adiacent
Cagliari , Italy

WEB DEVELOPER
Mar 2023 - Jul 2023

- **Description**: It was my first internship experience within a company, where I was able to experience various frameworks and gain experience in teamwork. Furthermore, this experience was also an opportunity to do research and development on my chosen topic for my thesis.
- **Framework**: .NET, Laravel, Node.

Key Skills

WEB DEVELOPMENT LANGUAGES

- Html, Css, Js, PhP.

PROGRAMMING LANGUAGES

- C, C#, Java, Python, Matlab.

DATABASES

- MySql, PostgreSQL, MSSQL Server.

FRAMEWORKS AND LIBRARIES

- Django, Dot Net Core 3.0, Laravel, NumPy, SciPy, Pandas, MatPlotLib.

Developer

SOLID Design Principle, In all my coding i fallow SOLID Principle.

ML Technique, I have a solid understanding of Machine Learning principles and techniques, including machine and deep learning algorithms (also viewed on Matlab).

Source Code Repository, GitHub, BitBucket, VSS.

Technologies Practising, Dot Net Core(3.0), Node Js, React Js(Functional Component), Laravel.
